Josh stated the task force will be going over school policy which can be found in Board Docs on the school website. Binders with school policy will also be made available to members of the task force at working sessions.

Prior to the first work session task force members are asked to read the report/summary, take notes and prepare questions to bring back to the group.

Some of the issues the task force hopes to address through a SWOT analysis are: school culture, climate and becoming familiar with school policy. A goal of the task force to assure all staff and students are made familiar with policy especially those policies concerning bullying and hazing and ramifications.

Policy and protocol for using staff development every year will be created to review all relevant polices with certified staff. A specific protocol will also be developed to share relevant policy with coaches not on staff and non-certified.

The task force work sessions will be open to the public to make the process transparent. Minutes from the task force sessions will be shared on the school website and through an email to parent listserve.
